Join us at Hepworth Clay

Fired to perfection. Welcome to Hepworth Clay, where our legacy of craftsmanship meets the future of sustainable living.

At Hepworth Clay, we believe in building foundations that endure. For over a century, our vitrified clay products have helped shape vital infrastructure – from sewer systems to urban drainage – supporting healthier communities and more resilient cities. Our passion for precision and quality drives us to create solutions that stand the test of time.

Every day, we work with pride, delivering infrastructure that protects groundwater, manages wastewater, and ensures future generations inherit a safer, cleaner environment. We don't just make pipes; we engineer reliability into the systems that life depends on.

Where heritage meets innovation, we build the future. This is what we stand for. How about you? At Hepworth Clay, we're fired to perfection – just like our products – and we're looking for passionate individuals to join us in shaping a stronger, more sustainable world.

We are seeking a Multi Skilled Engineer to join the team at Hazlehead. This role will carry out planned maintenance activities in line with equipment and schedule attainment taking into consideration legal requirements. This role supports the Shift Engineers to maintain plant and equipment, customer service and required OEE.
